SUMMER IN CANADA

CISS MLI

THE TRUE VALUE OF A SUMMER PROGRAMME EXPERIENCE WITH CISS

When parents make the decision to send their child for a study abroad experience, they are making a bold investment in future success.

As we move further into the 21st century, conventional wisdom suggests that individuals are most likely to succeed if they are equipped with as many transferable skills as is possible.

These skills, including problem-solving, communication, critical thinking, and collaboration, can be applied not only throughout their careers but also through their lifetime. Study abroad programmes are uniquely positioned to help children build these complex yet foundational competencies.

At CISS, we are acutely aware of the tremendous and positive impact that our programmes have on a child's emotional growth and personal development. We strive to offer relevant topics and content, carefully designed to lead students of all ages on a path of self-discovery and transformative learning.

Each of our programmes feature educational elements to:

- Empower students to think and act independently.
- Inspire students to be more socially aware through their exposure to people whose attitudes, values and cultures may be different from their own.
- Foster meaningful and cooperative interactions between students through group activities.
- Encourage students to negotiate through challenging situations they may encounter as a part of the communal living experience.

CISS is committed to providing enriching summer adventures, high school programmes, and homestay immersion experiences – delivered in a safe, nurturing and compassionate environment.

Choose to invest in an unforgettable learning experience for your child this summer. We invite you to make that choice Canada - with CISS!

Offered in various communities across Canada, this programme gives youth the opportunity to truly integrate into Canadian culture while living with a caring host family. Students join everyday activities and practice their English in a friendly, supportive, and safe home environment. They are also encouraged to immerse themselves in the local community and to experience the culture. Homestay is the ideal way to learn what life in Canada is all about!

Our host families believe that hosting an international student in their home is a rewarding and unique experience that will not only enrich the life of the young student, but that of their family as well. Host families come from a variety of cultural backgrounds and circumstances, but what they all have in common is a desire to provide a caring and supportive home away from home.

Students and host families are matched with careful attention to suitability. Placement with a student of a different nationality may be possible. Students are invited to join in the day-to-day activities with their family, but structured programming is not offered.

All our host families undergo a thorough screening process including interview, home inspection, and police background check. Homestay accommodation includes a private bedroom with bed, dresser, closet, as well as three meals each day and the use of in-house laundry facilities.

As an Unaccompanied Minor, please complete the following information about the ADULT who will receive the child upon arrival at his/her final return destination:

Full Name of Adult: _____ Full Address: _____

Telephone Number: _____ _____

IMPORTANT NOTES:

WHAT IS A UM TRAVELER? Each airline has its own age requirement (please check with them directly), but for most airlines, students under the age of 12-13 and travelling alone must travel as an unaccompanied minor (UM). Students over the age of 13-14 can typically travel without the service with some airlines, however it may be possible to request UM service if preferred.

Students travelling as UMs are escorted from the check-in counter, through security, to the gate and on-board the aircraft by a staff member of the airline. They are supervised while on-board the flight and, once they land, they are escorted through immigration and luggage pick up. The airline staff will then bring the student(s) into the arrival lobby to meet the designated individual picking them up.

HOW IS THE UM SERVICE ARRANGED WITH THE AIRLINE? UM service is arranged with the airline and NOT through CISS. This service can be purchased at the time of ticket purchase or at the check-in counter. Costs associated range between $100-200 CAD each way, but the cost depends on the airline and should be checked in advance of purchase.

WHY DOES CISS CHARGE A UM FEE OF $75.00? Students travelling as UM are assigned a CISS staff as the person who receives the student upon arrival. The assigned CISS staff will also assist all UM students upon departure at the check-in counter. After the check-in is completed and the UM students are handed off to an airline staff member, our designated CISS staff will remain at the airport until all flights with UM students have departed.
